Company Info:

We are a 100% employee-owned company offering excellent compensation and benefits.

Pumping Services, Inc. is a stocking distributor and service facility for the world's leading manufacturers of equipment used in the treatment and transfer of water, wastewater and other fluids. We serve the municipal, industrial, construction, commercial and utility markets in New Jersey, New York and surrounding areas.

Job Description:

We are currently seeking a Project Estimator experienced in developing comprehensive field reports and developing cost estimates for materials and labor that will be required for projects related to water and waste water treatment. Candidate would be responsible for:

- Making site visits to develop a detailed scope of work including materials and labor estimates for quoting purposes.
- Work with our sales group and in house engineering group to perform site visits and retrieve any information necessary for projects.
- Work directly with customers to discuss and develop plans for upgrades and retrofits of existing systems.
- Provide project management oversight for installation of equipment on projects sold or emergency repairs that may need to be made at customer sites.
- Review bid specs and plans for new projects and be able to do basic take off of equipment required.
- Learn and understand the equipment that we represent to provide solutions for our customers applications and needs.
- Work will require field travel to perform site visits, but rarely would require overnight stay. A vehicle is provided for site visits.

Qualifications:

- A minimum of 5 years experience in project estimation related to the installation of mechanical equipment including plumbing, valves, pumps, motors and other mechanical and electrical equipment.
- Candidate must have excellent written and verbal communication skills and be able to interact with customers and other team members.
- Good understanding of industrial safety requirements, the use of tools, and rigging equipment.

- Ability to think outside the box to find solutions to problems encountered during installations.
- Candidate must be very organized and detail oriented to be successful at this position.
- Candidate must be proficient in Microsoft Office (outlook, excel, word etc.)

Special requirements provided by Pumping Services Inc.

- TWIC card
- 30 hour OSHA course

After 90 days you'll have access to benefits that include:

- Major medical, hospitalization, and prescription insurance plans
- Dental, life, and long-term disability insurance
- Uniforms
- Annual bonus

After 1000 hours of service, you will be eligible for our Employee Stock Ownership Plan (ESOP).

If you receive a job offer, you'll need to have a pre-employment physical at our expense. The exam will include a drug test and respirator fitness exam. You'll need to be clean shaven to take the respiratory fitness test.
